3 Sample interpretation

A strong placement of your Ascendant ruler gives a natural sense of direction in life. You know what you want and strategize around obstacles. Sun sextile the Ascendant shows that the warmth you project matches the resolve inside.

Moon square Saturn is your clearest lesson: feeling drops inward first and is spoken later. The full report opens houses, aspects and progressions along this line, each house interpreted as a separate life area.

4 Action tips

1. Use the Mercury-Jupiter trine: consolidate what you learn by writing or explaining it.

2. For the Moon-Square Saturn, name one feeling each week; unspoken confidence shrinks.

3. The Jupiter-MC trine makes teaching, publishing or consulting worth trying.
