3 Sample interpretation

A harmonious Mercury-Jupiter aspect describes a mind that loves learning and teaching with equal appetite. Knowledge grows by sharing; with the right field, talent turns into income. Sun conjunct MC points to a career model where identity and work are one.

Saturn conjunct Node is the warning: the spine is discipline. For a chart that looks for shortcuts, every regular field (reporting, production, education) converts to income while anything scattered falls apart. The full report opens every career indicator one by one.

4 Action tips

1. Keep a weekly rhythm of sharing knowledge (blog, talk, class): Mercury-Jupiter grows on it.

2. During Saturn-Node, schedule 3-month project cycles; continuity pays.

3. Read Pluto-MC squares as opportunity: change is coming, the prepared one wins.
